Don Martin, Dec 2014

Mid Asian Ibex, Tajikistan

10 brutal days in the Pamirs of Tajikistan. I lost 19 lbs. Kind of scary!!!

Last day of the hunt, no time to be picky. 560 yards, thank you Montana Rifle Company!

They're a lot bigger bodied animals than I expected.

WILDLIFE MONOGRAPHS

Vol. 183, February 2013

Effects of Harvest, Culture, and Climate on Trends in Size of Horn-Like Structures in Trophy Ungulates

Kevin L. Monteith, Ryan A. Long, Vernon C. Balch, James R. Haffelfinger, Paul R. Krausman, R. Terry Bowyer

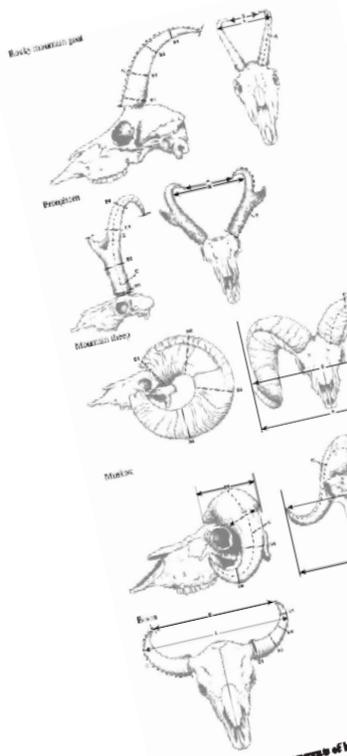

Figure 2. Illustrations of measurements of horned game according to the Boone and Crockett scoring system. Horns also measured to a rim of C and D measure across for all horns of game with the exception of pronghorn, where measurement (length of prong) was added.
